

General Product Specification

Item No.	OSP1818-10
----------	------------

Date	6/12/2012
------	-----------

No. Pages	1
-----------	---

Product Description:

Style	Pillows
Item Size (each)	18" x 18"
Color	White / Green
Composition	40% Polypropylene / 58% Gossypium / 2% Exppolystyrene
Structure	Spunbondouter sleeve filled with meltblown polypropylene and others chopped material
Technology	Air blown
Absorbency	Oil Only (Hydrophobic) absorbent / Resist penetration of water
Bonding	N/A

Intended Application	Oil / Land only.
----------------------	------------------

Absorbency Capacity	18.7 gallons per bale
---------------------	-----------------------

Packaging Description:

Packaging Configuration	case
Items Per Package	10 Pillows/case
Container Type	box

Package Weight	6.0 lbs
Package Dimensions	18" x 18" x 24.0"

Physical Properties:

Parameter	WISE Test Method	Units	Nominal	(+/-) Tolerance
Basis Weight	WISE TM001	LBS	6.0	2
Absorbency** (med Oil)	WISE TM012	GAL	18.7	7
3" Tensile Strength	WISE TM02	LBS	N/A	3
Color	N/A			

The above properties are "nominal" values used for process control when the product is produced and/or inspected. Performance "nominals" may vary depending upon the specific application, and/or environment being applied, stored, or shipped.

** The "Absorbency" spec and "WISE TM012" test methods based on the protocol of ASTM F726, using SAE 20 non-detergent as the Oil Type, medium viscosity.

Attributes	Product will be free of foreign material contamination, rips, holes and tears.
Labeling	
Certification	Make no changes in basic process or composition without notifying customer.
